Inquest Report on John Saunders

Inquests taken before Mr. Whitmarsh

At Brokenborough, near Malmesbury, on the body of John Saunders, 56 years of age. The wife of the deceased had gone to church in the afternoon leaving her husband at home, who had previously taken his dinner without complaint. On her returning she found him a few yards from his cottage lying dead on his face. It appeared that the rupture of a vessel had taken place from natural causes, and a verdict was returned accordingly.
