

Carnival Night at Chippenham

Chippenham Carnival procession was held last night, when prizes to the value of £45 were offered.

The route was much the same as in previous years, passing through the main streets of the town and finishing at the Carnival field.

Entries were fewer this year, there being no entry for the newly introduced "Jazz Band" class, but the standard of the other entries was very high.

Headed by the "King and Queen" (Derek George and Fay Scammell) in a decorated coach, the procession presented a very colourful spectacle as it marched to the music of the Calne, Corsham and Chippenham British Legion band.

The Westinghouse Silver Challenge Cup for the best entry in the procession was won by A. J. Philips (Chippenham) with "Windmill Car".

The Chamber of Commerce Cup for the best tradesman's exhibit was won by the Wessex Electric Company, Chippenham with "Water Lighting by Electricity".
