

An Electrical Magnetic Stimulator of the 1800's

## *Magnetic Electricity*

Fresh letters of gratitude of a remarkable nature may be found in another column of our issue today, speaking in high terms of praise of the wonderful curative properties of Messrs. Player and Retallack's "Magnetic Electric Appliances". Sufferers who have hitherto failed in obtaining relief or cure should read these testimonials with interest and decide for themselves. Mr. Player, M.E., will be in daily attendance at his private rooms, 28, Market Place, Devizes, until Thursday, June 26th.

**Devizes and Wiltshire Gazette, 19th June 1890**
