A marriage was registered in the June quarter of 1908, in the district of Manchester, between George Burnett & Ellen Gregory.

George Burnett enlisted with the Canadian Over-seas Expeditionary Force on 23rd September, 1914 at Valcartier, Quebec. He was a married Bricklayer & aged 25 years & 11 months. His religion was Wesleyan & he had never served in the Military. His next-of-kin was listed as his wife – Mrs George Burnett of 50 Sussex Street, Lower Broughton, Manchester, Lancashire, England. George Burnett was given the rank of Sapper – originally with 2nd Field Company Engineers then later with 3rd Field Company Engineers, 1st Canadian Divisional Engineers.

One of the first tasks completed by the engineers after the declaration of war upon Germany in 1914 was for the rapid development of the Valcartier training site in Quebec. At its peak size 30,000 men were stationed here before the 1st Canadian Division was deployed to England. The First Contingent of the Canadian Expeditionary Force set off for England in the largest trans-Atlantic convoy to date in October, 1914. Training and reorganization commenced upon arrival in the United Kingdom in October 1914, and it was not until 26 January 1915 that the division was officially organized, under the command of Lieutenant General E.A.H. Alderson, a British Army officer. Training in the winter of 1914 was rigorous, and conditions on Salisbury Plain were harsh due to cold and rain. After being stationed at Salisbury Plain in England, the 1st Canadian Division embarked for France during February 1915.

Sapper George Burnett died in hospital, in Wiltshire, England, on 6th December, 1914 of pneumonia.

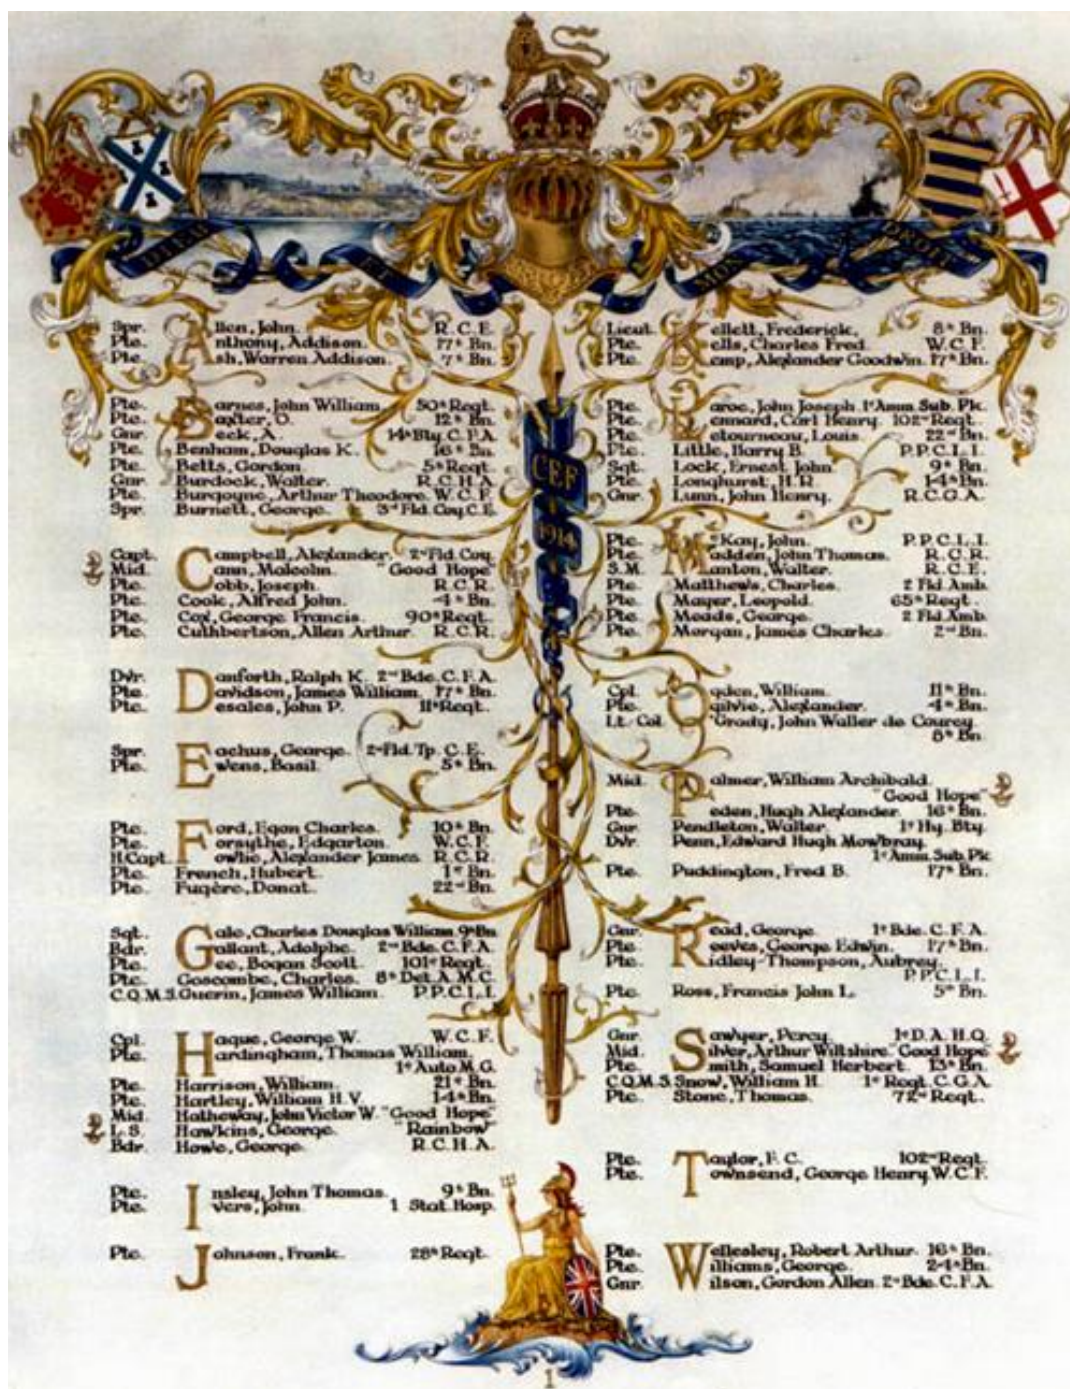

A death for George Bennett, aged 26, was registered in the December quarter, 1914 in the district of Amesbury, Wiltshire, England.

His death is acknowledged by Commonwealth War Graves Commission & as such he now has a CWGC headstone with the inscription "Duty Nobly Done, Dearly Loved By All".
