

Food for Britain from Australia

London, December 26

Rev. E. H. Steele, rector of Wishford, near Salisbury, spent the evening of Christmas Day distributing tins of food and fruit from a wheelbarrow which he pushed around the village. The gifts came to him through the Australian Food for Britain Fund.

The rector's wife bore a son during the holiday. This is the first time a rector's son has been born in the village for 80 years.
