

Railway Branch Line to Open

Wilts, Somerset and Weymouth Railway

The branch of this line from Warminster to this city will be opened on Monday next. There are intermediate stations at Wilton, Wishford, Langford, Wiley, Codford, and Heytesbury. We sincerely trust that this line may realise all the good that it is anticipated will arise from its opening, by bringing this city into nearer communication with the northern parts of this county, and with the West of England generally.
