

Salisbury, June 24,

Under the most distinguished Patronage of the Governors of the Salisbury Infirmary, the following cases are attended to and INSTRUMENTS manufactured by J. MOODY, TRUSS-MAKER TO THE SALISBURY INFIRMARY, and Manufacturer of every description of Mechanical Apparatus for the different Distortions of the Human Frame: - Distortion of the spine, Wry necks, &c; Hurl feet and Crooked Legs; Contractions of Tendons, or Stiff Joints; Trusses for every species of Ruptures; Bandages for the Prolapsus Ani and Uteri; Suspensors for Riding, &c; Hunting Belts; Laced Stocking; Wooden Legs of every description; Backboards, Shoulder-caps, Collars, Gags, &c. for young Ladies.

After many years' experience, and almost unparalleled encouragement and success in his profession, J.M. pledges himself to the public to execute the same on the most scientific principles.

N.B. Mrs M. attends the Ladies.
